There are many of them in the state, milk fever and ketosis, or acidosis and footrot. In swine, cholera and erysipelas. And there is a long list of others, which look almost the same, but for which care and treatment are entirely different. What the owner does in these cases can often mean the difference between losing an animal or saving one.

Bobby Inman, Junior class president, served as toastmaster and gave the welcome address. Glenn Hudson, president of the Seniors, gave the response. Superintendent S. J. Casey gave the invocation.

Following the banquet a prom was held in the cafeteria with refreshments served by parents of the Juniors. Special guests included members of the faculty and school board and their families.

## INDUSTRIAL DEMOCRACY

It is only natural that employees should want democracy in the office, factory, or wherever they work, as much as in the operation of government.

Democracy in a place of employment is commonly called industrial democracy.

Industrial democracy is of two kinds: (1) benevolent cooperation between management and employees; (2) negotiations between labor unions and management.

Labor unions are of two kinds: (a) those with democratic operation of the union by its members with officers chosen in free elections; (b) those with a fascist-type of operation with officers who perpetuate themselves in power and victimize the employees as much or more than they victimize the owners of the plant where the union members work.

In their early history, labor unions were predominantly democratic and controlled by their members.

But as unions waxed strong and obtained for their members reasonable hours and pay, there came upon the scene high-pressure promoters and 'goons' who shoved aside the pioneers who had brought labor unions out of their wilderness. These promoters established themselves in positions of power within the unions and perpetuated themselves in power.

As soon as the union had a contract in a plant these outside promoters supplanted the union pioneers and began to push around the employees with one hand while they rubbed around the employers with the other.

By contrast, how fortunate have been those offices or factories with owners who had always practiced benevolent cooperation. They enjoyed fair wages and hours. As the advance of technology brought machines to do what men's brawn used to do, the employees shared in this advance with shorter hours. As markets increased for the goods they produced, the employees were rewarded with higher pay, a share in the greater profits, and the knowledge that those with the greater initiative would get promotions.

How different it is in a plant with a labor union under control of promoters who call a strike every year or two. Not only are the employees forced to do without the necessities of life during the strike. Even though they win a raise, it takes years to offset the wages lost during the strike and by that time there may be another strike.

Certainly these high-handed union leaders keep up a show of democracy. The unions have constitutions and by-laws which provide that they be conducted according to rules of parliamentary procedure. But as union members are often heard to say: "You stand up to talk and the chairman tells you to sit down. If you don't sit down the sergeant-at-arms knocks you down."

The pages of history are strewn with records of the loss of true democracy by a free people misled by false prophets with promises of greater democracy.

# An Open Letter... FROM THE MERCHANTS OF ELBA TO THE PEOPLE OF COFFEE COUNTY

Elba, Alabama  
May 12, 1960

## TO OUR GOOD NEIGHBORS AND FRIENDS:

50 years ago, the foundation for what you and we today know as Dorsey Trailers was laid by two brothers who grew up in this community. These two men, "Pete" and Henry Dorsey, started out with a dream that became reality - a desire to serve the public, to give honest value in return for money received, and to provide a means of livelihood for people in need of employment.

Since then, great strides have been made by Dorsey Trailers. As one of the Big 3 in the trailer manufacturing industry, Dorsey has earned for itself a reputation throughout the United States, Europe, Latin America and wherever trailers are used, as a standard of quality.

In April, 1959, in announcing to the employees that Dorsey Trailers had been sold to an investment corporation, J. V. Wright - who had been with Dorsey over 47 years, commencing his employment as a young man 17 years of age, and becoming President - spoke these words:

"It feels mighty good to merit the respect and admiration of Dorsey competitors as well as of Dorsey customers, because wherever you go... wherever trailers are in operation... you will hear people speak with praise of the integrity that is built into every product that bears the Dorsey name.

"Because of my long and happy association with Dorsey Trailers, you can readily understand why I have such a warm regard for each of you... why I always have and always will take a personal interest in your problems and welfare... and why you will always find me ready and eager to work with you and to help you.

"Our chief consideration in the decision to sell the business was to protect the interests of the vast number of people who depend upon Dorsey Trailers as a means of earning a livelihood. In the event of a fatal mishap to one or both of the two individuals who owned practically all of Dorsey Trailers, the effect on Dorsey employees could have been disastrous. We felt that with public ownership, this risk would be eliminated and continuity of operation of the Dorsey organization would be assured, regardless of the health and lives of any individual stockholder.

"Firms other than the one that bought Dorsey Trailers offered A MILLION DOLLARS MORE than the business was sold for. And we have proof of this statement in our files to show when, how and why DORSEY TRAILERS PASSED UP A MILLION DOLLARS!

"Dorsey Trailers was not for sale at any price unless the purchaser lived up to certain clauses and considerations in behalf of Dorsey employees. It took months of planning and praying to consummate the deal. But when the transaction was made... it was with the knowledge and satisfaction that the Dorsey organization would continue to operate in the future as it had in the past - with no one's job or livelihood being jeopardized in any manner.

"With this assurance, Dorsey Trailers was sold to a group of 17 highly respected and successful businessmen who represent nationally-known organiza-

tions. To give you some idea as to the integrity of these businessmen who invested in Dorsey Trailers, here is a piece of information that should dispel any doubts or negative thinking on the part of anyone who may have wondered how the new set-up would affect him. I once read or heard of a man who thought so much of the girl he wanted to marry, that he was willing to change his last name and take on hers. And that's exactly what took place when Allied Investors Corporation bought Dorsey Trailers. THE NEW CORPORATION WILL NOT BE KNOWN AS ALLIED INVESTORS CORPORATION... BUT AS THE DORSEY CORPORATION!"

On April 30, 1959, Dorsey Trailers had 703 employees. At this writing, the company has 975 employees, which represents an increase of 38.7%. For the first quarter of 1959, which includes the months of January, February and March Dorsey Trailers paid to its employees a total of \$82,327.04 in Profit-Sharing incentive wages. During those same months in 1960, Dorsey has paid its employees a total of \$171,827.14. This is over twice as much as was paid in 1959.

The Profit-Sharing percentage factor per employee for the first quarter of 1959 averaged 15.79% of each covered employee's base wages. In spite of a 38.7% increase in personnel, the average Profit-Sharing percentage on each employee's base wages for the first quarter of 1960 averaged 27.1%. Dorsey's total payroll for the first three months of 1959, including Profit-Sharing for those three months, equaled \$632,995.03. For the same period in 1960, Dorsey Trailers paid its employees \$1,009,182.13, an increase of \$376,187.10.

It is said that no company remains small by choice. And when a 2-man machine shop such as the one founded by the Dorsey brothers grows to one of the leading industries in the State, and one of the three largest of its kind in the world, employing nearly a thousand men and women, problems are bound to arise.

The economy of the Merchants of Elba, and of Coffee county depends on the wage-earners who live in these communities and who depend upon Dorsey Trailers for their livelihood. We feel that any problems which may affect a company that provides employment to people in our area will also affect your and our economy. With this in mind, we extend our whole-hearted support to Dorsey Trailers and its employees, and want them to know that the Merchants of Elba are behind them 100% in facing problems which may jeopardize the area's economy. When men such as "Pete", Henry and Claude Dorsey, J. V. Wright and George Collier put the welfare and interest of their employees above all else, we feel that loyalty is a two-way street which should be traveled by the employees as well as the company.

Sincerely,

Under the direction of Mrs. Joan Rainer a group of songs were sung by Bruce Paul, Candace Orgs, June Jacobs, Judy Jacobs, Eddie Cooper, Elton Maddox, Benita McCullough, Diane Vaughan, Sheila Hudson, Nancy Brock, Sammy Waters and Rich Jeter.

Elementary and High School teachers then met in their respective groups. Recreational Reading and the Testing Programs were topics discussed by the elementary group.

Mr. Marion Brunson gave a brief talk on evaluation of the programs held during the

## The Master's Touch

God must love beauty, to use it so lavishly. The Master Artist dapples the soft green leaves with golden sunshine, turns the brook to flowing crystal, and puts a song into Spring itself.

There is beauty in us, too... because He put it there. In His sight, none of us are ugly, none of us are forsaken, none of us are "lost."

But sometimes, in the busy process of day-to-day living, we turn blind eyes upon the world's loveliness, and take for granted the gifts which should brighten the hours and years. We need a faith that gives us vision to find again the inner beauty He gave us in the beginning... a gift which He never takes away. Let us go, then, to His Church. Let us "enter into His gates with thanksgiving... for the Lord is good; His mercy is everlasting; and His Truth endureth forever."

THE CHURCH FOR ALL  
ALL FOR THE CHURCH  
The Church is the greatest force on earth for the building of character and good citizenship. It is a treasure of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Please go to church regularly and read your Bible daily.

## MORE USE LIBRARY

Three libraries in the Cross Trails Regional Library Service showed an increase in circulation for the month of April over the preceding month. They were: Elba with Mrs. Glennie Rowe Smith as librarian, Branley with Mrs. Margaret Carroll as librarian and Latvina with Mrs. Jessie M. Stone as librarian.

Each year, laboratory research develops more products to make the life of a diabetic as normal as possible. Oral therapies are now available that in some cases eliminate the need for insulin injections. Check with your doctor about these new developments. If a prescription is given, bring it to us. We carry complete stocks so important to the very life of a diabetic.

## QUESTIONS, ANSWERS ON PENSION ACT

Because of the wide-spread interest among veterans and their dependents on the new pension law going into effect

later this year, The Elba Clipper today prints another article of pertinent information on the new law.

The following questions, with appropriate answers, were chosen by the Veterans Administration from the thousands being asked:

Q. What are the changes in methods to be used in computing income under the new system?

A. Income received by a veteran or by his widow from any source, with few exceptions, will be considered as income under the new system. In cases where the veteran's spouse has a separate income the new law provides that all such income over \$1200 per year shall be counted as the veteran's, unless to do so would create a hardship.

Q. What would constitute "hardship" in this instance?

A. If the evidence shows that the entire income is needed for large and unusual family expenses—such as those incurred by serious illness or unusual expenses incurred for the education of children—counting all but \$1200 of the spouse's income as the income of the veteran might be regarded as a hardship. Each case of this nature is considered on its own merits.

Q. What income is specifically exempt by law?

A. Eight categories of income are exempt from consideration in calculating the annual income to determine pension eligibility.

They are:

1. Payments of the six month death gratuity by the Service Departments.

2. Donations from public or private relief welfare organizations.

3. Payments of compensation or pension by the VA.

4. Government life insurance payments and payments of servicemen's indemnity.

5. Social Security lump sum death payments.

6. Payments to an individual under public or private retirement, annuity, endowment or similar plans equal to the amount he contributed thereto.

7. Proceeds of fire insurance policies.

8. In the case of widows or

children of a deceased veteran there are excluded amounts equal to the amounts paid for settlement of the veteran's last illness, and the expenses of the veteran's burial less the amount reimbursed by the VA.

### NO ONE HURT AS CARS TURN OVER ON ROAD

There were two different accidents on Highway 84, in Coffee County, during the past week in which an automobile overturned but without serious injury to the driver in either wreck.

John M. Buchanan, 33, of Enterprise, was the driver of an automobile which wrecked 22 miles west of Elba Sunday about 3 a.m. when the steering gear broke with the result that the car overturned on the pavement and was demolished. Buchanan was not seriously hurt.

Winston Nixon, 16, of Route 2 Elba, a student at Opp High School, was returning home from school about 5 p.m. when a tire blew out on Highway 84 about four miles east of the Coffee - Covington county line. The car ran off the road, overturned and was demolished but the driver was not seriously hurt.

J. D. Wambles of the Alabama Highway Patrol, investigated both accidents.

### Land Bank Offers Farm Scholarship

The Federal Land Bank of New Orleans is awarding a \$1,200 scholarship each year to an Alabama farm boy who enters the school of agriculture or the department of vocational agricultural education at Auburn University, announced James S. Pridden, Jr., manager of the Federal Land Bank Association of Enterprise, Ala.

To be eligible for a scholarship the applicant must be a member of the 4-H or FFA. He must rate in the upper 30 percent of his senior class and show leadership ability, Mr. Pridden says.

The \$1,200 scholarship for the winner will be given at the rate of \$300 per year for four years.

Mr. Pridden advises that interested boys should contact either the principal of the school, the county agent, vocational teacher, or the manager of the Federal Land Bank Association and request that an application blank be secured.

Oscar Vaughan, Jr., vice president of the Elba Exchange Bank, was elected president of the Elba Chamber of Commerce at the annual meeting Tuesday, this week, succeeding Dr. E. M. Warr.

Ross Smith, Chevrolet dealer in Elba, was elected Chamber vice president while Duke Tatum, Jr., was re-elected secretary - treasurer and Miss Marguerite Rhodes was re-elected recording secretary.

Dr. Warr called attention of the members to the fact that annual dues of \$15.00 are now due and payable and requested that every member mail a check to Miss Rhodes.

Mayor H. E. Taylor announced that almost \$60,000 is now in the special Hospital Fund from the 1 per cent sales tax which, by law, can be used for no other purpose and requested that Elba finally get a hospital even if it is necessary to wait until sufficient funds have accumulated for the city to build it without federal or state aid.

Dr. Warr concluded his final meeting as president by reviewing activities of the Chamber during the past year with the comment that when the year's accomplishments are seen in review it can be understood that the Chamber of Commerce is valuable to the city's progress even though it may not be apparent week to week.

### CROPS LATE IN COUNTY DUE TO COOL WEATHER

Although the weather has been cooler than normal in Coffee county in April and May, no great damage to crops has resulted, according to Thomas C. Casaday, assistant county farm agent.

The growth of peanuts has been stunted although it is too soon to say how extensive the condition will be. Cotton has also been affected.

Crops are two or three weeks late planting due to cold weather but all these setbacks can be overcome if weather is favorable hereafter, Mr. Casaday said. Although there have been some heavy rainfalls, including a 2 1/4 inch downpour May 7, precipitation has not been too heavy.
